

Jesús Álvarez

Learning & People Analyst | Workforce Enablement & Business Strategy | Independent Researcher in Education and Talent Economics

Nuevo León, Mexico · [LinkedIn Profile](#) · [angel-alvarez-cv.vercel.app](#)

PROFESSIONAL PROFILE

Bachelor's degree in Education and Administration, with training focused on Talent Management and Corporate Learning. Experience leading large groups, designing performance indicators, and facilitating training and skills-development processes. His capstone project, recognized by the Northeast chapter of the National Chamber of the Electronics, Telecommunications, and Information Technology Industry (CANIETI), gave him experience managing multiple stakeholders while collaborating with Microsoft IT solutions architecture and cybersecurity experts and with UMM's digital transformation division. Studies in Economics (UANL, through the 6th semester) built a foundation in analytical thinking, predictive models, and strategic thinking.

PROFESSIONAL OBJECTIVE

Build a career in People Analytics, Learning & Development, and Business Intelligence, applying expertise in human talent management, instructional design, and data analysis — with genuine commitment to people and technological fluency — to bring strategic value to a Human Resources team.

EDUCATION

Bachelor's Degree in Education and Educational Center Administration

Aug 2025

Universidad Metropolitana de Monterrey (UMM)

Capstone project: D.A.T.A. — Development of AI Teaching & Automation; a multi-agent conversational AI ecosystem with an institutional pilot rated 86–98% by faculty, developed in collaboration with Microsoft and recognized by CANIETI Noreste. [View project](#)

Bachelor's Degree in Economics (not completed)

Through 6th sem.

Universidad Autónoma de Nuevo León (UANL)

CERTIFICATIONS

Workforce Planning Strategy — Microsoft

Sep 2026

Coursera · Course 1 of the Strategic Workforce Planning specialization. Workforce planning with clear success metrics, Power BI dashboards with KPIs and DAX formulas, analysis of engagement and turnover-risk signals, and the impact of AI on talent needs.

INDEPENDENT PROJECTS

Casa CoLectiva — Economics of Educational and Talent Development — [Own project](#) · [site under construction](#)

Independent research and digital dissemination line focused on macroeconomic and labor-market factors in strategic talent development. First publication: "Social and Educational Innovation for Shared Prosperity: The Growth of the EdTech Market" (social innovation, Quadruple Helix, EdTech). [View publication](#)

Protocolo CoLectivo — AI skills repository — [Own project](#)

AI (Claude) skills and workflows that encode original methodologies in the economics of education, talent management, and instructional design; each skill automates a specific workflow combining recognized theoretical frameworks with industry technical

standards. [View repository](#)

PROFESSIONAL EXPERIENCE

Teaching — Secondary Level

2023 – 2026

Colegio Regiomontano Contry La Salle (2025–2026) · Colegio Mexicano (2023–2025)

- Automated assessment processes and designed performance indicators to objectively track individual and group progress.
- Simultaneously managed up to 11 groups of over 30 students each, sustaining collective performance under multiple competing priorities.
- Provided individual and group mentoring, tutoring, and coaching — strengthening skills development and conflict management, and leading institutional initiatives.

Instructional Design Intern

2022 – 2023

Talisis

- Collaborated with Data Science, Software Engineering, and Product Innovation teams to develop content-generation tools for instructional design, supporting training-needs assessment and the design of scalable learning solutions.

Independent Driver (Ride-hailing)

2019 – 2022

Self-employed

- Self-managed an independent business (income, financing, customer service, and time management), building self-management skills and a results-oriented approach under high autonomy.

Administrative Assistant

2018 – 2019

Santander Universidades

- Managed product positioning and student credentialing events for university-sector institutions, coordinating multi-institutional relationships and account management.
